PROFESSIONAL SUMMARY

Email Developer and Web Developer with 3+ years of experience building responsive HTML emails and web pages for marketing and fundraising campaigns. Known for shipping reliable, production-ready templates, improving existing systems, and quickly adapting to new tools, platforms, and workflows.

EXPERIENCE

Web Developer

Mal Warwick Donordigital | Berkeley, CA
May/2022 - Present

- Create responsive HTML emails and web pages that render consistently across devices, browsers, and email clients including Outlook and Gmail
- Build, update, and maintain reusable email templates supporting ongoing marketing and fundraising campaigns
- Translate design files and campaign requirements into tested, production-ready email templates and landing pages
- Implement dynamic content, personalization fields, and structured template logic to support marketing automation
- Test and QA email templates to ensure proper rendering, accurate links, and reliable dynamic content
- Maintain and improve existing websites, templates, and integrations for reliability and consistency
- Use performance and engagement data to refine template structure, personalization, and usability
- Collaborate with designers, campaign managers, and developers to deliver dependable, production-ready assets

EDUCATION

Bachelor's degree Digital Media Arts

California State University-Dominguez Hills | Carson, CA
Aug/2010 - Jun/2014
